PROFILE SUMMARY

Senior Software Engineer with **4.5 years** of experience in .NET and Angular full stack development and Android/iOS mobile application development using Flutter. Strong expertise in building scalable applications, developing RESTful APIs, and delivering end-to-end software solutions. Experienced in performance optimization, troubleshooting, clean coding practices, and agile methodologies.

EXPERIENCE

Team Lead · Syncfusion (Chennai) July 2025 – Present

- Improved quality and consistency across the team through structured reviews and shared development standards.
- Lead full stack development for a **team of 4 developers** and manage end-to-end project delivery, from requirements to release.
- Mentor team members, conduct code reviews, resolve technical challenges, and promote development best practices.
- Contribute to frontend and backend development while coordinating team activities and ensuring timely sprint releases.

Senior Software Engineer · Syncfusion (Chennai) July 2023 – July 2025

- Resolved critical production issues in owned modules, reducing customer-reported bugs.
- Built end-to-end features spanning .NET APIs, Angular web UI, and Flutter mobile screens.
- Developed and enhanced **15+ application features** across web and mobile platforms, improving functionality and user experience.
- Owned key modules such as ticket management, optimized performance, and guided team members technically.
- Wrote unit tests for backend APIs and Flutter features, improving release reliability.

Software Engineer · Syncfusion (Chennai) May 2022 – July 2023

- Delivered mobile features that brought key BoldDesk web functionality to Android and iOS users.
- Developed **10+ mobile application features** using Flutter and Dart, focusing on usability and performance.
- Implemented ticket management features, push notifications, and customizable forms in the Android and iOS mobile application.
- Released and maintained app builds on **Google Play Store and Apple App Store**.
- Collaborated with team members to develop, test, and maintain reliable mobile applications.

EDUCATION

Bachelor of Engineering in Mechanical Engineering · Rajalakshmi Institute of Technology (Chennai) 2016 – 2020

SKILLS

Backend:	C# · .NET Core · ASP.NET Web API · ASP.NET MVC · Entity Framework / EF Core · LINQ · RESTful APIs
Frontend:	Angular · TypeScript · JavaScript · RxJS · HTML5 · CSS3 · Syncfusion Essential JS 2
Mobile:	Flutter · Dart · BLoC · Firebase · Android · iOS · Play Store / App Store
Database:	SQL Server · PostgreSQL · SQL
Tools & Practices:	Git · Visual Studio · Postman · Swagger · Azure DevOps · Agile/Scrum · Code Review · Unit Testing

PROJECTS

Bold Desk - Ticket Management System

- Developed and optimized **30+ RESTful APIs** for ticket management and activity tracking, implementing CRUD operations and improving backend performance and reliability.
- Optimized database queries and data access using indexing and Entity Framework tuning, while validating authentication flows and documenting security findings.
- Integrated backend APIs with Angular web applications and Flutter mobile applications, ensuring consistent data synchronization across platforms.

ACHIEVEMENTS

- **Promoted twice in three years** at Syncfusion, progressing from Software Engineer to Team Lead.
